## **SB 205 Business Licenses: Stormwater Discharge Compliance**

Dear Facility Operator, Landowner, or other responsible party,

California Senate Bill No. 205, which was approved on October 2, 2019 and applies to all initial business license and business license renewal applications submitted on and after January 1, 2020, mandates industrial facilities operating within the City of El Segundo to demonstrate coverage under the National Pollutant Discharge Elimination System (NPDES) Industrial General Permit (IGP) program prior to being issued a new or renewed business license by the City of El Segundo.

A business requires IGP coverage if it has a regulated Standard Industrial Classification (SIC Code). Regulated SIC Codes are defined in Attachment A of the IGP:

[https://www.waterboards.ca.gov/water\\_issues/programs/stormwater/docs/industrial/2014indgenpermit/atta.pdf](https://www.waterboards.ca.gov/water_issues/programs/stormwater/docs/industrial/2014indgenpermit/atta.pdf)

Businesses requiring IGP coverage must comply via electronic submittal of applications and reporting to the Storm Water Multiple Application and Report Tracking System (SMARTS):

[https://www.waterboards.ca.gov/water\\_issues/programs/stormwater/smarts/](https://www.waterboards.ca.gov/water_issues/programs/stormwater/smarts/)

For more information and resources about how to select the appropriate SIC Code(s) for your business and identify whether your business is operating as an industrial facility, please refer to the information provided in the attached leaflet, titled, "Selecting a Standard Industrial Classification (SIC) Code."

**To meet the requirements of Senate Bill No. 205, businesses operating as a regulated industry within the City of El Segundo must provide the following information, to the extent applicable, as part of the business licensing process:**

- The name and location of facilities operated by the person of that business.
- All primary SIC Codes for the business.
- Whichever of the following apply for each facility operated by the person of that business, as issued by the State Water Resources Control Board (SWRCB):
  - The stormwater permit number, known as the Waste Discharger Identification number (WDID).
  - The WDID application number.
  - The "notice of non-applicability" (NONA) identification number.
  - The "no exposure certification" (NEC) identification number.

If you have any questions regarding the requirements of this new law, please contact Cheryl Ebert ([ceberty@elsegundo.org](mailto:ceberty@elsegundo.org) or 310-524-2321).

You may also contact the State Water Resources Control Board's Office of Enforcement ([stormwater@waterboards.ca.gov](mailto:stormwater@waterboards.ca.gov) or 916-341-5272) for additional information.

## SB 205 Business Licenses: Stormwater Discharge Compliance

If you are applying for a new or renewed business license in the City of El Segundo, please fill in the following table, to the extent applicable, and return this form at [taxinquiries@elsegundo.org](mailto:taxinquiries@elsegundo.org):

Business License Account Number:	
Contact Name:	
Business Name:	
Business Address:	
Description of Facility's Primary Activities:	
Applicable SIC Code(s):	

If operating as a regulated industry, please also provide the following information:

WDID Application ID Number <sup>1</sup> :	
WDID Number <sup>2</sup> :	
Notice of Non-Applicability ID:	
No Exposure Certification ID:	

<sup>1</sup>The WDID Application ID Number is assigned by the SWRCB to track an IGP application (i.e. Notice of Intent) in SMARTS that has not yet been assigned a WDID number.

<https://smarts.waterboards.ca.gov/smarts/faces/SwSmartsLogin.xhtml>.

<sup>2</sup> The WDID Number is issued by the SWRCB once the IGP application (i.e. Notice of Intent) has been processed in SMARTS.
